## SUMMARY

Aspiring frontend developer with a solid foundation in modern web technologies and a keen eye for design. Skilled in building responsive and intuitive user interfaces using HTML, CSS, TAILWIND, JavaScript and React. Adept at translating design mockups into interactive web pages. Excited to contribute my creativity and technical skills to a dynamic team and learn from experienced professionals in the field.

## SKILLS

- HTML
- React
- Basic Python
- CSS
- C/C++
- TAILWIND
- Data Structure and Algorithms
- JavaScript

## PROJECTS

### Project 1 - Music Player

- Developed a responsive and interactive music player using HTML, CSS, and JavaScript.
- Implemented audio controls, playlist functionality, and dynamic UI elements to enhance user experience.
- Demonstrated proficiency in frontend technologies, ensuring smooth navigation and seamless music playback.

### Project 2 - Password Generator

- Designed and implemented a secure password generator application using HTML, CSS, and JavaScript.
- Integrated user input options for password length and complexity preferences, providing customizable password generation.
- Implemented randomization algorithms to ensure strong and unique passwords with each generation.
- Showcased problem-solving skills and attention to user security by creating a reliable password generation tool.

### Project 3 - Amazon Clone

- Designed and developed a replica of the Amazon website using HTML, CSS.
- Implemented key features such as products showing, interactive cart functionality etc.

## EDUCATION

### B.Tech in Computer Science Engineering (AI)

Expected Graduation Year: 2021-2025

### 12th with PCM

Year : 2019-2020

## EXPERIENCE

### • Web Development Internship at IBM Skills Build

August/2023 to September/2023
